

**NeoResus Combined First Response & Advanced Resuscitation
Facilitator Workshop**
09:00 to 17:00
7 Contact Hours

10 minutes 09:00 - 09:10	Welcome and introduction NeoResus Program Facilitators and participants
10 minutes 09:10 – 09:20	Overview of the NeoResus Program <ul style="list-style-type: none"> - Multidisciplinary program participants - Skill mix & ratio of Facilitators required to run the program
15 minutes 09:20 - 09:35	Program preparation for participants <ul style="list-style-type: none"> - Pre-reading/pre requisites for attendees - Theoretical component (Lecture) - Practical component (Skills stations and scenarios) - Pre and post program online competencies (quiz)
40 minutes 09:35 – 10:15	NeoResus Advanced Resuscitation scenario by Faculty <ul style="list-style-type: none"> - Infant born following antepartum haemorrhage at 36 weeks Group discussion and debrief <ul style="list-style-type: none"> - Identifying clinical & behavioral issues during a scenario - Debriefing a scenario - Introduction to “Key Behavioral Skills”
25 minutes 10:15 – 10:40	Program IT and equipment requirements <ul style="list-style-type: none"> - IT requirements: computer, screen, iPads - SimMon Application for iPad/iPhone (iOS devices only) - Equipment for workstations (First Response v Advanced) - Laminated guides for workstations
20 minutes 10:40 – 11:00	Morning tea
30 minutes 11:00 – 11:30	NeoResus Resuscitation Lecture: Q & A session <ul style="list-style-type: none"> - Discussion of key recommendations, GRADE & levels of evidence - Frequently asked questions and responses - Required reading/preparation (Participants & Facilitators)
15 minutes 11:30 – 11:45	Set up of skill stations (First Response & Advanced) <ul style="list-style-type: none"> - Equipment lists for the Clinical Skills workshop/scenarios - Intubation (Medical v nursing roles), Use of a DVD - UVC insertion (Medical versus nursing roles)
45 minutes 11:45 - 12:30	First Response skill station: Demonstration & practice <ul style="list-style-type: none"> - Mask ventilation devices (T-piece, self-inflating bag) - Face mask placement/ reducing mask leak - Coordinating IPPV and external chest compressions
30 minutes 12:30 – 13:00	Lunch break
45 minutes 13:00 – 13:45	Advanced Resuscitation skill station: Demonstration & practice <ul style="list-style-type: none"> - Intubation station including strapping - Umbilical venous catheterization station (human cords) - Drug and fluid administration

15 minutes 13:45 – 14:00	NeoResus Scenarios (Whiteboard discussion) <ul style="list-style-type: none"> - Key learning objectives - Site/participant specific adaptations - Checklists and observations to guide debriefing
60 minutes 14:00 – 15:00	Leading a scenario and debriefing practice for participants <ul style="list-style-type: none"> - Scenario 1: Meconium stained liquor (30 mins) - Scenario 2: Peripartum hypoxia-ischaemia (30 mins) Focus on running, observing, and debriefing the scenario
15 minutes 15:00 – 15:15	Short break
60 minutes 15:15 - 16:15	Leading a scenario and debriefing practice for participants (cont.) <ul style="list-style-type: none"> - Scenario 3: The preterm infant (30 mins) - Scenario 4: Antepartum haemorrhage (30 mins) Focus on running, observing, and debriefing the scenario
30 minutes 16:15 – 16:45	Challenges of scenario-based training and feedback <ul style="list-style-type: none"> - Dealing with incorrect actions/decisions that are inconsistent with the ANZCOR algorithm - Intervening in, or stopping a scenario - Providing constructive feedback while addressing key issues - Dealing with difficult/challenging learners
15 minutes 16:45 – 17:00	Questions, evaluation and close
